#### U. S. Completes Case Against A. D. Kirwan

NEW YORK. March 29.—(P)—
The federal government today completed its case against Andrew Donaldson Kirwan, nerve-afflicted 23-yearold youth accused of slaying Gilliam Sessoms on the high seas.

Meanwhile it was indicated the defense would be that the victim's fatal stab wounds were self-inflicted.

Technically, the government's case against Kirwan, son of Mme. Jean Nash Dubonnet, described as the 'best dressed woman in Europe,' will remain open until the trial resumes on Monday, but Federal Judge Robert A. Inch said he expected the defense to open early that day.

of their flavor, texture, and ease in cooking, make up the greater part of the consumer demand, but the lesser part of the carcass. The prices of these cuts are higher, therefore, than the cuts which are not in such demand. To buy to the best advantage, all the cuts of the carcass must be used. In this way only can the spread in prices between the cuts in great demand and the cuts in little demand be lessened. These less-demanded cuts are as nutritious, and, by proper methods of cooking, may be made as tender and palatable as the greatly demanded cuts.

Ways of Using Beef.

Hind and Fore Shank—The shank is used for soup, stews, and ground meat.

Round—The round is a juicy cut which is used for steaks, pot roasts, and served with sauerkraut, split peas, or other vegetables, such as spinach. They are also jellied and served cold in slices.

Ham—The ham either may be cooked in water or baked whole, or in thick slices, or the center portion may be cut in slices of varying thicknesses and used for broiling or panbroiling. The butt and shank ends are cooked with vegetables, used for escalloped dishes, or minced for sandwiches.

Aside from the muscle tissue of the meat, the glandular tissues also furnish edible portions, known as sundries. These should be included in the diet because they offer a way of introducing variety; they are reasonably priced; and they have excellent dietary properties. The protein of the liver is of especially high biologic value. It is also rich in iron and, as has been pointed out earlier in this bulletin, liver fat is rich in vitamin E. Kidneys of beef and pork also have been found valuable in the treatment of anemia and probably for much the same reason that liver has.

ROUCTS ARE UPHELD

AND LABOR TO FROM THE CONTROL OF THE CONTROL

An agreed verdict was returned in Fulton superior court Thursday awarding \$280,425 to Mrs. W. A. Hester, of 481 Oakland avenue, Atlanta, and other claimants, against the American Marble Company, operators of about 600 acres of marble lands in Pickens county. Georgia. Mrs. Hester is to receive 36 per cent of the sum of the judgment, the balance to go to Mrs. C. G. Mosely, of White Stone, Ga., individually and as executrix of the estate of C. D. Daley, deceased, and as guardian of Clay Mulkey; and to Gordon Morrison, as executor of the estate of the late M. Morrison. The sum awarded is for royalties under leases entered into by the company.

The company, a New York concern headed by John W. Lee, has been in receivership since 1932. In the order of court made by Judge E. D. Thomas, petitioners may apply for public sale of the properties, which include approximately \$400,000 worth of equipment, at the end of 90 days.

Every woman knows there's much more to cake baking than appears on the surface. A cake may be light as thistledown-tender and deliciously brown, and yet, exasperatingly disappointing to taste. Many things give Merita Cakes that exquisite flavor that good cooks so thoroughly appreciate. Rich ingredients, used with a "heavy" hand. Flour of infinite delicacy that absorbs the maximum sugar. Many, many things! Far too many to enumerate, but most of them you'll find in perfect balance in Merita Cake.

It used to be sulphur and molasses but now it's delicious Kellogg's ALL-BRAN WILL you ever forget the sulphur and molasses

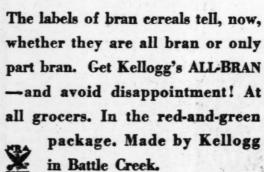

"spring tonic"? But times have changed. Today, we know that much of the listlessness of spring days results from common constipation.

This condition can be corrected by including plenty of "bulk" with meals. So today, instead

of getting an unpleasant "spring tonic," you go to your grocer's for a package of Kellogg's ALL-BRAN.

Two tablespoonfuls of this delicious cereal daily furnish the "bulk" needed to help promote regular habits. ALL-BRAN also provides vitamin B, as well as a generous share of the iron you need in spring.

People who are really ill after the winter, of course, should consult their physicians. ALL-BRAN is simply recommended for common constipation - and is not a "cure-all."

Keep on the sunny side of life

no imprisonment.

Supporters of the bill said efforts would be made in conference to make the bill applicable for two years; to eliminate the six-bale exemption and to restore the penal provisions.

eliminate the six-bale exemption and to restore the penal provisions.

Gore's Proposals.

Some of the penal amendments by Senator Gore would authorize the secretary of agriculture to enact "penal statutes" to enforce the act. Proponents of the bill said this was authorizing a "ridiculous impossibility" but they offered no objections to the changes, confident they would strike them out in conference.

Secretary Wallace, while lukewarm toward the compulsory step, called the bill "an interesting experiment."

During the debate, southern senators conceded that most of the cotton growers wanted the bill passed.

Two consistent opponents of the administration's legislative program, Senators Fess, of Ohio, and Robinson, of Indiana, republicans, said they feared it would lead to regimentation of agriculture.

Compulsory Plan Held Urgent.

Bankhead and other advocates contended the farm administration's voluntary cotton reduction program would fail unless the compulsory plan was adopted to prevent non-co-operators from increasing their production.

Cully A. Cobb, chief of the cotton section of the farm administration, on whose shoulders will fall much of the detail work of applying the compulsory

whose shoulders will fall much of the detail work of applying the compulsory act, tonight announced the probable distribution by states of the 10,000,000

distribution by states of the 10,000,000 bales.

The figures were based on a five-year average of cotton production from 1928 to 1932, according to the original provision of the bill. Widening of the base to 10 years will make no appreciable difference in the figures, Cobb said, except a more equitable distribution for states which have not increased production materially in the past few years.

Georgia's Quota 847,000.

Texas, largest cotton-producing state, would be given a quota of 3,123,000 bales with Mississippi, the only other state to be allowed a production of over a million bales, 1,003,000.

Other state figures are: Arkansas, 400.

Cobb said he hoped the original 513,000; Louisiana, 508,000; Tennessee, 327,000; California, 136,000; Missione ti would provide a much better poportunity for applying the act. ## Cudahy's NU-PROCESS **PURITAN HAMS**

EPARTMENTOF

Ham for Easter! It's an American tradition as renowned as the Thanksgiving turkey. And, like most traditions, there's good sense behind it, for there is no more delightful and substantial meat food for Easter or any other day than ham - especially if it is Cudahy's Nu-Process Puritan Ham.

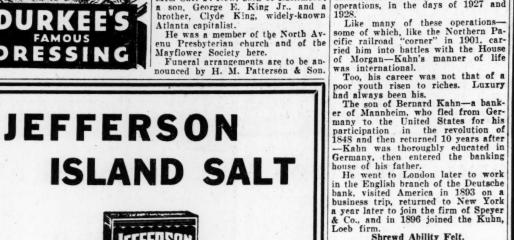

Under the Cudahy Nu-Process method choice hams from young, corn-fed porkers, are cured in salt, sugar and savory spices in accordance with the exacting Cudahy formula. They are then thermalized - that is, subjected to a slow, even hickory ember heat, so they absorb an appetizing, delicate hickory flavor and acquire a protective covering that locks in their prime, savory goodness and inherent sweetness and tenderness.

Sound good? They taste even better. Ask your dealer for Nu-Process Puritan Ham in the colorful Easter cellophane wrapper. You will find it the perfect Easter dish - the finest ham ever produced.

# **NEW DEAL GAINS**

Business, Industry, Agriculture All Reflect Definite Improvement in Recent Months.

By E. D. BRIDGES. LAGRANGE, Ga., March 29.—(P) This section's comeback since Rooseinauguration offers definite

proof of a new deal.

A year of periodically stimulated business, government rehabilitation and an elevated standard of living have combined to erase most of the dark colors from the panorama of life in central western Georgia and central eastern Alabama.

The hum of machinery in two-score The hum of machinery in two-score cotton textile mills from Opelika, Ala., to Hogansville, Ga.—55 mills and several hundred thousand spindles—is louder than it has been since 1928. These mills, located in the Chattahoochee valley towns of Opelika, Shawmut, Langdale, Fairfax, Riverview and Lanett, Ala.; West Point, La-Grange and Hogansville, Ga., consume half a million bales of cotton annually.

expanding United States Rubber's industrial campaign in the south.

Improved business benefits have been laid out, facilities of Y. M. C. A.'s and community recreation houses improved, and mill village residences repainted and renovated. Dunson Mill, at LaGrange, recently let a contract for installation of 277 bathroom plumbing systems in mill homes.

Farming, second major industry here, presents fully as bright a picture. A year ago, planters had despaired of ever borrowing money on their land. Now the same land is accepted by the government at fair evaluation. It is even rented by the government, with the farmer enjoying the privilege of reaping the crops are not cotton.

Living Standards Better.

Restored confidence in rural life has tended powerfully to elevate the standard of living. This is evidenced in repainted Bouses, erection of new paper subscriptions and the rural sale of radios and clothing.

The farm comeback is having a powerful result upon other channels of commerce.

Business Barometer.

Since cotton textile manufacture is the chief industry of this section, activity in this line may well be taken as an accurate business barometer.

LaGrange, the only city in the group not almost totally composed of mill population, is made up of 80 per cent textile workers. A new city directory now being prepared will reveal that LaGrange has gained between 300 and 400 residents since the 1930 census of 20,131.

Within the "comeback year," mill pay rolls in LaGrange have been fattened by \$20,000 a week, and in proportion elsewhere in the textile belt. The West Point Manufacturing Company on 'anuary 1 paid off \$414-600 in dividends and on April 2 next its regular dividend of \$1 plus an extra of \$1 to all stockholders of record on March 23 will be paid.

Trade Gains Shown.

Until an NRA ruling revised the

the table the first time, more cotton was ginned in Troup county than was made altogether in the year 1932. In 1932 Troup county's smallest cotton crop was harvested and sold for a song.

Changes in Tax Bill Seek To Relieve New Strain on Treasury.

By RICHARD L. TURNER. WASHINGTON, March 29 .- (AP)-The executive department set about carrying out the mandate of congress to make higger payments to veterans today and left congressional leaders trying to figure out what the legisla-

trying to figure out what the legislative defiance of President Roosevelt might pressage for the remainder of his progoram for the session.

While party leaders believed it possible that President Roosevelt might demand increased taxes to offset the increase in payment to veterans they said that they had no intention of moving in this direction without a White House request.

The pending tax bill, already approved by the house, will be put to a vote in the senate next week. Chairman Harrison, of the senate finance committee, in charge of the bill, pointed out today that his committee had added to the measure items expected to yield \$72,000,000, and bring total estimated revenues to \$330,000,000. This he thought should be sufficient to cover the increased veterans' and government employe payments.

REVOLUTION WASHINGTON, March 29 .- If that brain truster

were whispering the truth in Professor Wirt's ear today, he would say this: 'The Roosevelt revolution is just about over." What is bringing it prematurely to a conclusion is business

News Behind the News

There was a time about a year ago when Mr. Roosevelt could have done some sensational left-handed revoluting. Business would have stood for anything. So would finance. There was no political opposition nor any other kind of opposition. The president could have done anything.

Since then things have changed. The opportunity has slipped. Business and finance have found that they are not going to die after all. Their deathbed psychology is gone. They are halfway back They feel their strength and are using it.

Each passing day makes them stronger, and the prospects of a Stalin-like revolution dimmer. The only thing which can bring an economic revolution (in the European sense) to this country now is a new economic collapse. That is hardly a chance worth believing in.

A studious European with a disinterested viewpoint recently looked at the situation in this novel way: "Your democratic traditions make it impossible for you to have"

a revolution such as there has been in Russia and in Italy. Your people are the second and third generations of the ambitious people of Europe, those who wanted to get ahead in the world and left Europe for that purpose. Nowadays they want to own a home for themselves. They want to give their children better opportunities for advancement than they had. They are discontented with their lot. They are looking always for advancement for themselves.

'In Europe it is different. The peon knows there is little chance for him to better his lot and does not worry about it. He lives his life in an entirely different way. He contents himself with what unambitious beauty and simple comfort he can get out of his surroundings. His life is acceptable poetry. Yours is ambitious Personally I prefer the European way, but I doubt that your people will.

You may make reforms but you cannot legislate that inherent feeling out of your people. As I recollect, you once put prohibition in your constitution, but you still drank. So will it be with the reforms you are now enacting. I think your revolution has been

"Your constitution and your laws are what your people want them to be from time to time. Your government can go no fur-ther than your people will let it. Your people are ambitious and conservative.

WORKOUT Half the insiders in Washington would probably agree with this analysis of the fundamental situ-The brain trusters would not. Their obituary notice was published some time ago, but probably Dr. Wirt did not see it. At any rate, his dissertation is founded mostly on what one of them supposed to have told him last summer. A lot of water has gone over the dam since last summer.

Also, if Dr. Wirt could get any two brain trusters to agree on any method of procedure about anything, a medal is awaiting him

Here is what happened: Mr. Roosevelt called in the college professors to help him formulate his reform program. He found that college professors are great on abstract logarithms but poor on political exigencies. He found one or two who could soften their theories to practical necessities. But by and large they would die for their principles.

So he suggested that they suffer torture instead of death and invited them (with some exceptions) to join his government either officially or unofficially. That would have been all right for them except that he also invited a few persons like Johnson, Hull, Roper, Farley. Cummings et al to sit in with him.

The result is these brain trusters are far more dismayed at the administration than you could possibly be. They have found Mr. Roosevelt was not alone a liberal but also a conservative.

CHANCES If you want to bet any money, bet it this way: (1) The revolution is not coming. (2) Despite reform, in 1936, or somewhere around there, we will still be fundamentally what we were in 1926.

The best story of the day is the one about the representative of the Tass agency (Russian) who was saddled with Professor Wirt last summer and told to give him a good time. The story is to the effect that the doctor wanted to hear about revolution and nothing short of that, so the Tass fellow filled him full of it. It is now denied, but it is a good story anyway.

bulwinkles can pull the wool over their eyes, or do they mean sheepwinkles? A stock market critic says: "What I like about sheepwinkles? A stock market critic says: "What I like about the Wall Street boys is that they've got rhythm. That's what we ought to have."

#### There Are Dirt Eaters, But No Public Restaurant Caters to Them Bu Robert Quillen-

Law and public opinion and common sense agree that the public should be protected from smut.

Why, then, does the law tolerate indecent literature?

Those who ask for protection usually speak in the name of the young. They say that boys and girls whose minds are innocent and clean are corrupted and debased by reading dirt.

But that isn't the only argument against it. Filth may not injure: minds; for those who have high standards of decency will not read it, and those who delight in it are already corrupt. But why should the law tolerate literature that appeals only to per-

verted minds? It doesn't tolerate any other method of catering to The stock arguments that parents should choose all reading matter for their children; that no one is forced to buy the smut offered for sale; that the press must be free to print what the public demands—all

of these would be sound if dirt was essential to literature. But it isn't. If no unclean word had ever been written, the world would be no poorer. Literature without filth would be as complete as art without pornographic pictures and the drama without incest. Dirty literature doesn't supply a demand for literature. It supplies

demand for dirt. You are told that the adult and liberal mind enjoys certain unclean works because of their humor, wit, satire or philosophy. But expurgate them—take out the barnyard words—and little interest would remain. Rabelais without naughty-boy words would be the most tiresome

The only possible excuse for suggestive and pornographic publica tions is the fact that people of perverted taste will buy themaccept that is to justify any abomination or corruption in existence. (Copyright, 1934, for The Constitution.)

Roosevelt's Trip Aboard Astor Yacht Is Reply to **Brain Trusters Who Seek** To Destroy "Rugged Individualism" and Private

BY DAVID LAWRENCE

WASHINGTON March 29 .- These are unhappy days for the "brain trust." Just as they were beginning to feel they had established firmly some of their pet theories, along comes President Roosevelt and knocks said theories into a cocked hat.

One of the most zealously espoused doctrines of the "brain trust" is that the era of "rugged individualism" is over. But this very day Mr. Roosevelt himself, probably with undisguised please, gives "rugged individualism" the distinction of being host to the president of the United States

For no more conspicuous example One of the most zealously espouse

For no more conspicuous example of the fruits of "rugged individualism" could have been selected than the sumptuous yacht of Vincent Astor known as the Nourmahal. A ship like that not only costs in the neighborhood of a million dollars nowadays, but the expenses of operation of that type of vessel run close to \$150,000 year. It takes, therefore, more than a couple of corporation presidents' salaries to pay for the crew and up-

Only a fortune built on individualism could yield such a luxury—if, indeed, to enjoy the sea in comfortable surroundings is not a necessity for a tired chief executive. The Astor fortune was not built up under any such system as the members of the brain trust advocate today, for not only do they urge a limitation of profits but a redistribution of existing wealth as well.

It might, of course, be argued that a president ought not to accept such favors from wealthy men and that the government itself ought to provide a yacht for his use. But a yacht like the Nourmahal would cost the American taxpayers a considerable sum and, proportionately speaking, it would be the Vincent Astors and his group in the higher brackets of the group in the higher brackets of the income tax who would be paying the bulk of the cost anyhow. So, there isn't really any essential difference in letting Vincent Astor pay for such trips either through income taxes or

by direct outlay. It all comes back to the same thing—without rugged individualism there wouldn't be any money from in-come taxes from the few, but the toll to be substantial. Anybody who knows Mr. Roosevelt is aware that when it comes to government business he courageously decides issues that adversely affect his best friends.

The significance of the president's willingness to take a vacation on the fact that he sticks to his boyhood friends—he has known Vincent Astor all his life—but that radicals in congress like Senator Norris, of Nebraska, who hitherto have been quick to denounce wealth when it gets too close to the government, are silent.

It is proof of the remarkable mastery which the president has over all proops in congress that in the face of a busy session he can take a 10-day holiday and go aboard the yacht of one of the richest men in America without incurring the slightest criticism.

Honesty Is Basis.

There may be in Mr. Roosevelt's decision to make the voyage on the Nourmahal a desire to let the capitalistic world know that the president is not opposed to the theory of individualism after all. A long time ago, during the fake world series in Cincinnati, there appeared in town in a hotel suite that occupied a whole floor a group of about a dozen teamsters out of Texas who had bought some leases for a few dollars when the first of the oil fields were about to come in and had sold out to the big oil companies for millions of dollars. They used to sit around the floor in fancy silk underwear that was more like lady-stuff than men's, shooting craps for thousand dollar bills which they were peeling off rolls as hig as eabyeas.

### **CLOSING LOOMS TODAY 11** FOR ALABAMA SCHOOLS

#### Failure to Get Federal Funds Expected to Affect 53

MONTGOMERY, Ala., March 29 .-(P)-The wholesale closing of Alabama's rural schools tomorrow was forecast this afternoon by Dr. A. F. Harman, state superintendent of education, after receiving word from Washington that Alabama's emergency education grant had been limited to \$1,000,000 instead of the \$2,000,000 excitations of the \$2,000,000 excitations to the second state of the second second

on anticipated.

A swift check by accountants at the state department of education showed that \$971,716 already had been expended and that the remainder would not keep the schools open after temograph.

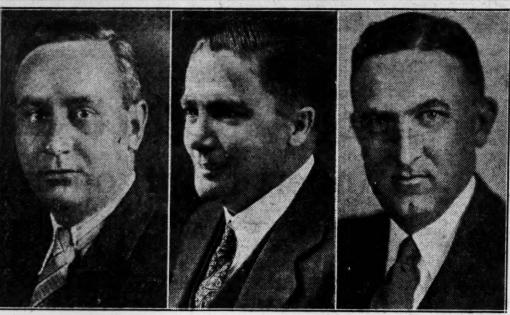

fomorrow.

Dr. Harman said that practically all schools in 53 counties and 17 cities with a population under 5.000 would be closed tomorrow, shutting schoolsouse doors on 300,000 white children, 100,000 negro children, 8.500 white teachers and 2,400 negro teachers.

He was described by members of the White House staff as "looking fine." He will remain over the Easter holidays and will then return to school at Groton, Mass.

## ... nor does she trust her teeth to "candy" tooth paste

One of the first signs of "growing up" is the ability to reason from cause to effect. And that grown-up faculty applies especially to your selection of a tooth paste.

People who are wise in regard to dentalhealth thoroughly enjoy the invigorating, salty, business-liketaste of Pebeco. Because they know that Pebeco is the only tooth paste using Potassium Chlorate as a base, the vital ingredient for tooth, mouth, and gum health.

Pebeco's effectiveness has been clearly demonstrated in recent nation-wide Twin Tests, conducted by the highest dental authorities. In these tests, Pebeco proved superior to all of the other five leading tooth pastes in these five ways...1-In whitening teeth ... 2-In polishing teeth ...3-In removing stains and film...4 -In healing gums...5-In combating acid mouth.

Try Pebeco. You'll like its fresh tang because you know that refreshing taste means business...the business of caring for your teeth correctly.

## Are Honor Guests

LAFAYETTE, Ga., March 29.—
Miss Nilla Ruth Shields, of this city, and George Haven Putnam, of New York, were married a few days ago at Fort Myers, Fla., after a courtship lasting 24 hours. Following their marriage Mr. and Mrs. Putnam spent several days in LaFayette en route to New York where the bridegroom is an anuthor of several works, although he is only 23, while his bride is two years his junior. The bride, the youngest daughter of Dr. J. A. Shields, of LaFayette, and the late Mrs. Cora Pitman Shields, is a niece of Judge Claude C. Pittman, of Cartersville, presiding judge of the superior court of the Cherokee circuit. She is a sister of Mrs. Tucker Hardwick, of Dalton; Mrs. Bert Kitchen, of LaFayette, and Mrs. Horace Shattuck, of LaFayette.

With her father, the bride was on a motor trip to Florida and upon their arrival was informed of a party to be given in her honor. Invited to the party was young Mr. Putnam whom she married the following evening.

#### A Bid That Cost a

Championship

I have so often told the story of my intense admiration for the bidding and play of my favorite male bridge partner, "Teddy" Lightner, who has played with me in many a hard-fought match, that I feel I am justified in telling the story of his costly penalty double which, if it did not cost our team the championship in the recent team the championship in the recent grand nationals of the United States Bridge Association, made certain that we would not play off with the even-tual winners, and, in passing, it might be said that the play of the hand gave to a rising young star, Sydney Rusi-now, a chance to show that his game is sound, both in bidding and play. The hand was played in a team-of-West, dealer.
Both sides vulnerable.

To make it clear: Here is a stingy many who counts the cost of everything before he buys it. And as you know this is a loathsome trait to the average woman. He falls in love and because love always wants to express itself in a gift he thinks of giving his girl a box of candy. His impulse is to buy a pound but under the stress of love he stretches himself and buys five pounds. Love has suggested genfive pounds. Love has suggested generosity to the stingy man and he has taken her suggestion.

Mr. and Mrs. W. D. Anderson, of Macon, Ga., spent the week-end with the former's mother, Mrs. W. D. Audreson, on Freyer drive.

Miss Katherine Kennedy left Monday for Los Angeles, Cal., where she will spend several weeks with Miss Margaret Carter. Miss Kennedy will return home through the Panama canal.

Mrs. W. E. Thomas, of Valdosta,

Or, take the case of a girl in love with a man who likes to sit at home and talk. He cares nothing for social life. She loves to go about to the movies with the other young people, to the dances, anywhere to be on the go. When she discovers that the man she loves is bored with all that, she gives it up gladly and sits at home with him, night after night.

Then one fine day they get married, go off on their honeymoon and come home to settle down to the drab life of making a living, and keeping house. The new wears off quickly. Now this same young man brings his wife a bar of milk chocolate instead of the five-pound box of candy. The comparison is not so good. And the young wife, who has been spending her days sequestered at home, is eager to go out when evening comes. She has sat at home, with unselfish consideration of her husband's wishes, as long as she intends to. She is ready to go. Don't you see that the love which reversed those natures for a brief spell did not change them? They are just as they were: but neither of the couple suspected the true state of affairs. Neither the man nor the woman is exactly the sort of person each thought the other.

By MIGNON.

Nothing will make a woman look so old as tired eyes. So many women are vain and won't wear glasses even when they need them. So they go on training their eyes, getting wrinkles, looking slightly troubled and not at all fascinating. If there is so ne thing that helps beauty it's bright eyes and an absence of wrinkles and troubled looks.

I've discovered that one of the finest things to rest the eyes after a day's work is a lotion which is used with big pads of cotton and placed over the closed eyes for about 15 minutes. If you take generous pads of cotton, lie down and place the pads over your eyes, in about 15 minutes. If you take generous pads of cotton, lie down and place the pads over your eyes, in about 15 minutes. If you take generous pads of cotton, wet them (very wet) with this lotion, lie down and place the pads over your eyes, and an absence Press Association entertained.

son each thought the other.

Has she made an awful mistake? Probably so. Certainly the thought comes to every man and every woman at some time during the early years. Suppose she has? There are several courses open to her. One is to make the best of it. Our lives are filled with awful mistakes. Those who live successfully turn each one, as it comes. successfully turn each one, as it comes up, to good account.

Marriage, like all the other inti-mate relationships of life, has its rough places, its bumps, and consequent spills, its heartaches and its disappointments. All these emergencies may be met in such a spirit of tolerance and mutual understanding that they leave no lasting scars on

A Tonic and Sedative for Women

The trouble is that young people approach marriage expecting it to secure to them all the things that they have gleaned from their engagement. They have a foolish notion that marriage changes them and that love which has afforded them such happiness before will afford them greater papiness after. It will and greater papiness after. It will and greater papiness after. It will and greater geg hunt sponsored by the Mothers Guild immediately following the service of baptism. go of it, which must include a willingness to bear with each other's faults, make allowance for each other's faults, make allowance for each other's weaknesses, and a firm determination to keep their love on the altar, nothing can separate them and nothing will.

Love, once born, dies hard. It is as tenacious of life as the proverbial nine-lived animal. It will absorb a lot of punishment. It will submit to persecution. But, young people, it can be nailed to the cross and crucified. Nagging is one nail. Selfishness is another nail. Thoughtlessness is another. Neglect is another. Infidelity is the greatest nail of all.

A girl of 14 should listen to her

A girl of 14 should listen to her parents. When she becomes of age she will have plenty of time to decide these things for herself, but until she does she is her parents' little girl and has no right to use cosmetics if they tell her not to do so. Nothing is lovelier than a fresh young complexion. You can't improve it with paint. That's why mothers try to keep their children away from it until they begin to fade a bit.

Very many mathers have no objection to a small amount of good pure face powder to take the shine off the nose. If your mother says this is not objectionable to her I can tell you of a fine powder that will do nicely for this purpose. But be yourself. When you start dancing till all hours and eating at parties all the things that are not good for you, your complexion may need a little fixing, but don't start it at 14!

Girls and Perfume. Girls and Perfume.

There are gentle perfumes for young girls. Not those vampish, heavy scents. No girl in her teens should try a Diamond Lil fragrance because she makes herself cheap when she uses it. Perfumes have a meaning and there are different kinds for different types.

I can tell you some scents that are appropriate for young things at the going-out-to-dances-with-beaux age.

## Whose Fault?

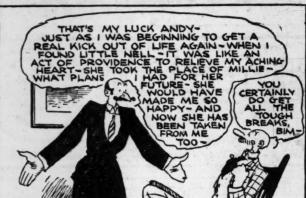

### The Surly or Sulky Boy

Children seldom sulk because they are "bad." Something is wrong with them physically. Crossness is a symptom of biliousness, the same as a coated tongue. So, don't blame your child, do something to help him. Not with doses of any strong physic! Anything that drains the system and saps a child's strength only makes matters worse. There is a way to treat sluggishness in a way to treat sluggishness in Sy children without using violent medicines, and it straightens them out. See next column:

A healthy child is a happy child-Good health and good behavior go together. A boy whose bowels are moving every day, and moving thoroughly, couldn't stay cross five minutes! To prevent those bilious upsets in children, or to correct the constipated condition caused by the constipated condition caused by the habitual use of some cathartic, just use senna. ## AS THE EARTH TURNS

By GLADYS HASTY CARROLL

"Jen, what do you think I'd better do?"

She looked at him, seeing the outline of his figure plainly, and the familiar concerned, uncertain expression on his face. She remembered his hands as they traced the corn, the admiration with which he spoke of Olly to her father, his voice the few times he had sung his songs to her and the rest at home, the field he plowed and the care he gave it, the crop his manner blows, the patience of his ways. She knew his mind hung balanced between two wills one of them to stay and one to go, and that what ashe told him he would do.

"It's as you think," she said.

"It can't think," he told her desperately. "I've had it back and forth until I can't go straight either way. I want to stay here, but the folks want me to go. colored eggs.

We may go back much further than that, however. The folk of olden Egypt seem to have used the egg as a sign of joy in a festival which took place each year.

King Edward I ruled from 1272 to 1307, and a record of his household states that he purchased 450 eggs for an Easter Sunday. The price paid was "18 pence." Since an English penny is about two cents in our money, we say that the king obtained 37 1-2 dozen eggs for 36 cents. Thus he paid less than a cent a dozen!

Speaking of a custom among people living near the Euphrates river, a writer states: writer states:
"Their children buy themselves as many eggs as they can and stain them with a red color . . or green and yellow. The sport consists in striking

### Basketball Has Come a Long Way Since Winter of 1891-92

For a game which started out as a sort of soothing syrup to keep 18 or 20 roughnecks quiet, basketball has done right

There are, so I am informed, some 28 million boys and girls playing the game. And that is quite a leap forward from the 18 who started with it.

It is pretty generally known that basketball originated at Springfield (Mass.) International Y. M. C. A. College in the winter of 1891-92 and that Dr. James A. Naismith, of that college, invented the game, using a couple of Georgia peach baskets as the baskets.

Dr. Naismith is a naturalized Canadian; the first basketball was an English soccer ball, and the Georgia peach baskets were the baskets. It had a sort of international background to begin

I have always been curious as to origins, and so yesterday I asked Dr. F. C. (Phog) Allen, of the University of Kansas, where Dr. Naismith now resides, if he could tell me the story. (Dr. Allen is here for the national basketball coaches' meeting.) It developed he could. And most interestingly.

There was no game for winter," said "Phog" Allen, who is a keenly set-up man with an ability to know what is a story "And there were about 18 football and baseball players at Springfield College who grew so bored with doing nothing in the winter that they became quite a problem.

"And so the college president, in desperation, called in Dr. Naismith and said something like: 'For heaven's do something to entertain those roughnecks. They will tear down the college if they don't have something on which to work out all this surplus energy. Invent a game.' "

Now, this seemed like quite an assignment, but "Phog" Allen tells me that Dr. Naismith is a great scholar and a research man, and nothing stumps a research man.

#### DR. NAISMITH GOT BUSY.

Dr. Naismith got busy. He knew that he must have a ball and so he took a soccer ball. And there must be a goal. And so he looked around and he found some peach baskets.

At first the baskets were placed horizontal with the gym floor and the ball was shot straight into them. But the ball wouldn't stay there, and so he eventually put them straight up.

And then he discovered that he could hang the baskets on the running track. The indoor circular running track had just been invented. And here is a smile. Or maybe a laugh.

The running track was just 10 feet above the gym floor. The baskets were hung on it. And that is why all the baskets in the game today are hung just 10 feet above the gym floor. Had the running track been 15 or 14 feet the baskets would be that height today. But as it is, there are those who defend the sacred rules and insist on no change. All because a running track, in the winter of 1891-92, was hung that distance in the

Most of our traditions, which we defend so lustify and maybe go out and die for, originate in just such a haphazard, careless manner. But they pick up strength and reverence with the years. But that isn't important.

There was a hole bored in the bottom of the baskets and at each basket stood a boy with a long pole which he stuck through the hole and punched out the ball.

#### THERE WAS NO LIMIT TO PLAYERS.

There was no limit to players in the beginning. The 18 for whom the game was invented liked it so well that others became interested.

It wasn't long until there were often as many as 150 playing on each side. Dr. Naismith never had an idea that the number should be restrained. But this brought on complications. The walls of the gymnasium were often in danger, and so the number was reduced to nine to a side.

They played girls' rules, having two centers, four forwards and three guards. Later the number was re-

Proposals for Changes To Be Passed on Here Saturday.

By Al Smith.

Most of the country's leading bas-ketball coaches, whose opinions he has sought, are satisfied with present rules, George Edwards, chairman of the coaches' rules committee, told the National Basketball Coaches' Associa-

tion yesterday.

Edwards, of the University of Missouri, said some of the coaches thought a few minor changes were needed, while others expressed the be-

needed, while others expressed the belief there should be a drastic revision of the rules.

Roy Mundorff, of Georgia Tech, president of the association, said at the opening session Thursday that rule changes would be brought up for discussion at today's business meeting. The group will decide then what proposed changes they will discuss and vote on Saturday. Their recommendations will be passed on to the national rules committee for action.

LACK UNIFORMITY.

Lack of uniformity in interpretation of the rules in various sections of the country is the main complaint of the coaches against the officials, A. A. Schabinger, of Creighton University, said in the report of the committee on officials.

"Some object to two officials," Schabinger said, "because often one works while the other watches. One official sometimes attempts to domi-

Leading coaches from all sections of the country except the Pacific coast, which is not represented, were present for the first meeting. Dr. H. C. ## Cracker Notes

Abbott, the Cracker manager, loses no time in making up his mind as to what to do in the crucial moment of a ball game.

This was observed in the twelfth inning of the first game with the Red Yanuigans Wednesday. The score was tied at 3-all, and Taft Wright, first man up for Atlauta, drew a base on balls. Abbott immediately had Freddie Neisler bunt and when Neisler die Neisler bunt and when Neisler when the first, there were

The best that the Crackers could do on Wednesday in their first game as a unit was to assemble seven blows off Lee Grissom and Keith Frazier, two of the Red yannigans. Today they seemed to have their batting eyes more accurately focused and looked much better at the plate.

The most effective hitter of the lot, however, was Charley Sheerin, the husky young man who has been looking great down here this spring. Sheerin, who has his heart set on sticking this year, cracked out five hits for five times up, knocked in three of the Cracker runs and capped off the day by clouting a long triple to right center scoring Bobby Durham with the Crackers' last run.

Harry Taylor and Duck McKee connected for two hits apiece to fall next in line and both boys drove in runs with solid drives.

Taylor who plays first base like a dancing master and seems to have a knack for coming through in the clutch, punched out a double in the first inning to score little Buster Chatham with the first Cracker run. He later took part in the Cracker' five-run rally in the fifth, sending Sheerin to third with a bingle.

It seemed to make quite a difference when Courts and Hall, the Orange (N. J.) star, switched from one of the upper courts to the No. 1 exhibition court in the final set.

The sets stood at one-all and Courts went to work. Hall was erratic and Courts, playing with smooth precision, went on to win.

Tech Faces Strong Independent Nine at Rose Bowl Field.

By Roy White.

Georgia Tech's baseball schedule will be opened at 3 o'clock this afternoon on the Rose Bowl field with Buford. It will be the first of a twogame series, which will be concluded Saturday afternoon and will mark the only preliminary games for the Jackets in preparation for their collegiate schedule, which opens next week with This was shown for the edifica-tion of the assembled coaches and fans for a short period. schedule, which opens next week with Auburn here. They will meet #t Buford Saturday.

Coach Bobby Dodd gave the Jacket nine a long workout Thursday afternoon and spent much of the time working with players in the infield. A lengthy defensive drill was stressed.

REAL VALUE. Thursday's workout was the first of real value to the Jackets, as it was the first afternoon suitable for base-ball practice this year. The Jackets have moved along slowly and worked whenever the weather was warm, but not until the past two days has the team shown anything like being ready for the opening same today.

#### Oglethorpe Meets Gaylor Nine Today.

Oglethorpe will play the Gaylor Container nine at 3:30 o'clock this afternoon at Hermance field in the game of the season on the Petrel's home schedule.

Coach Frank Anderson's team open-ed with a well-played 3-to-2 victory over Buford Wednesday afternoon at Buford and today's game will mark the end of the preliminary season, unless a game is arranged for Saturday afternoon.

Excellent pitching on the part of Lefty Dixon and Ed Copeland coupled with good infield play and timely hit-ting by Hap Vance, was the Petrel's margin of victory Wednesday against the all-stars.

Belton Clark, a former G. M. A. star will most likely face the Gay-

### AT PINEHURST Takes Lead After Second Round and Defeats Brilliant Field.

PINEHURST, N. C., March 29.-

PINEHURST, N. C., March 29.—
(P)—Henry Picard, young Charleston (S. C.) professional, finally overcame his Pinehurst jinx today and won the thi ty-second north and south open golf tournament with a 72-hole total of 283.

Twice before the slender southerner had been out in front in this annual fixture, only to falter in the closing rounds, but today he met the challenge and beat out Horton Smith, Harry Cooper and George T. Dunlap Jr. in a hot battle down the stretch. They were tied for second at 286.

This was the first major victory for the 27-year-old Carolinan, who has been playing tournament golf for only a few years. A long hitter and deadly with his putter on these sand greens, Picard shot a 69 in the first round and came back with a brilliant 68 in the second. He jumped to 74 this morning but still managed to hold a stroke advantage, and covered the last round in 72.

This was good enough not only to boot his closest rivele. Smith, and

GOOD ENOUGH.

This was good enough not only to beat his closest rivals, Smith and Dunlap, by two shots in the gruelling finish, but also to add an extra stroke and wind up three blows ahead. Pickard's triumph exploded the old theory that the front runner rarely wins, for he was pacing the pack from the second round on. Smith and Dunlap, national amateur champion, drew to within a stroke of Picard after the third round, but both had 74's this afternoon. Six shots away after 54 holes, Cooper shot a 69, the best score of the last round, to pull into a three-way tie.

day afternoon in Buford and lost, 3 to 2, to Oglethorpe, due to excellent pitching and air-tight infield play on the part of Oglethorpe.

Jim Hyder or Hoyt Crowe will fade Tech today for Buford, with Hyder most likely to get the call.

Other members of the Buford team will include Gilbert, catcher; White, first base; Whitley, second base; Herrin, shortstop; Frank Anderson Jr., third base, and Baxter, Smith and Lee in the outfield.

Sholes, Cooper shot a 69, the best score of the last round, to pull into a three-way tie.

Playing over his home course, where he has won virtually every tournatement except this, Dunlap shot excellent golf and gave the professionals their second scare of the winter seamond. In the Texas open, Gus Moreland, the Walker cup player, had a chance to win but, like Dunlap, wound up in a tie for second.

Bill Mehlhorn, who led after the first round with a 67, built a closing to the last round, to pull into a tree-way tie.

### Power Club Holds Ring Card Tonight

Physical Instructor F. B. McGee. of the Athletic and Social Club of the Georgia Power Company, has arranged a wrestling and boxing card tonight for his regular monthly program presented in the club's auditorium at 36 Piedmont avenue. The card will start at 8 o'clock.

In the feature wrestling match Freddie Lassiter, of Columbus, Ohio, will be pitted against "Tarzan" Ben Jordan, of Atlanta. They are scheduled for a one-hour best two out of three falls affair.

Hal Glymph, local fighter, who has three falls affair.

Hal Glymph, local fighter, who has been winning most of his recent bouts, will meet Ernie Samples, former navy champion, a newcomer here. They will exchange mitts in a

In other wrestling skirmishes, Red Dugan, of Chattanooga, tussles with Foy Rivers in a 45-minute two out of three falls match. In a special grudge match between two Power Company employes, scheduled for 20 minutes, one fall, H. B. Holcomb, of the B division, meets Doc Sims, of A division.

#### Rogers and Powell Clash at West Lake

Pete Rogers meets Red Powell at West Lake arena tonight in the feature one-haur limit wrestling match. Charley Hanson and Allen "Dynamite" Dunn are matched for a lively semi-final also slated for one hour. Tony Lombardo and Bull Shmidt will open the show at 8:15 o'clock with another one-hour match.

## Buresch Tonight

Al Stecher, Joplin bad man, meets Stanley Buresch, the kangaroo kicker, tonight at the auditorium in what should be one of the roughest light-heavyweight wrestling shows seen here for some time.

Stecher has the reputation of being one of the roughest of the matmen, but Buresch believes that he can outrough the Joplin terror. Buresch is held by many to be the best of the light-heavyweights in the game today.

The semi-final bout brings together Ted Sarris, a veteran New Yorker, and Charles McClain, wrestling coach at Duke University. McClain is an Indian and can go the limit of one hour at top speed. In a 30-minute opener Frank Rem-mil, Atlanta's butcher boy, will meet

NEW YORK, March 29.—(A)—
Speculative markets rallied today, getting their leverage, apparently, from possible inflationary implications of the senate vote on increased veterans' benefits and reports that a move was under way to get upper house approval of a bonus payment with new currency.

house approval of a bonus payment with new currency.
With United States government bonds drooping, the dollar declining against sterling and commodities hardening, other markets seemed to have revived, at least for the time being, the inflation psychology which prevailed not so long ago. On the stock exchange, metal issues had a good boom, especially in the last hour, and leaders in other groups tilted upward. For mining issues net gains ran from 1 to 7 points; improvement elsewhere was less pronounced, averaging into a rise of 1.4 points. Trading was dull until the last hour, when increasing activity swelled the total

METAL LIST LEADS **ADVANCE ON CURB** 

By BERNARD S. O'HARA. NEW YORK, March 29 .- (AP)-Metal shares led a quiet advance on the curb exchange today. A number of specialties finished with sizeable gains, but utilities and oils closed generally narrow. The market was dull but steady most of the forenoon. Advancing ten-dencies appeared later and activity increased moderately in the last hour.

Transfers approximated \$280,00 shares compared with 208,000 yester The popularity of the metal groups The popularity of the metal groups probably was inspired by the inflationary implications in the action of congress in overriding the president's veto of the independent offices appropriation bill. Lake Shore, Newmont, Bunker Hill & Sullivan and Pioneer Gold advanced fractions to 2 points. Wright Hargreaves edged upward in heavy volume for a new high for the year.

upward in heavy volume for a new high for the year.

Gains of major fractions to a point or more were shown by Gulf Oil, Pittsburgh Plate Glass, Hiram Walker and Swift International. Electric Bond & Share, Humble Oil and Standard Oil of Indiana ended with small change.

Sales of Stores Show Big Increase in N. Y.

NEW YORK, March 29.—(AP)—Total sales of department stores in the New York metropolitan area during the first half of March were 36 per cent larger than in the corresponding period last year; the monthly review of business conditions of the New York Federal Reserve bank says.

"This substantial advance," the review says, "is accounted for in part by the banking holiday in March, 1933, but nevertheless indicates a more than seasonal increase in retail trade dur-

but nevertheless indicates a more than seasonal increase in retail trade during the past month."

Total February sales of reporting department stores in the entire reserve district, the survey says, were about 6 1-2 per cent larger than in the same month last year. The increase in sales of the Buffalo stores was the largest gince August 1923 and for other northsince August, 1933, and for other north ern New York state stores the increase in February was the largest since October, 1928.

The total dollar sales of reporting

wholesale firms in the entire district, the review says, averaged 45 per cent higher in February than in the same month in 1933. Stocks held by grocery and hardware firms showed substantial increases also.

C. OF GEORGIA LOAN INCREASED TO \$600,000

WASHINGTON, March 29 .- (AP)-The public works administration to-day increased from \$500,000 to \$600, 000 the recently made loan to the receiver of the Central of Georgia railroad for purchase of new equipment.

The loan will be used to purchase 200 new coal cars of 50 tons and the same number of 70-ton cars.

NEW YORK. March 29.—(P)—Early advances in cotton today on relatively firm cables and an easier dollar in foreign exchange were extended following Washington reports that the senate had passed the Bankhead cotton control bill. July contracts sold up from 11.94 to 12.14 and closed at 12.13 with the general market finishing very steady at net advances of 22 to 26 points.

Opening prices were slightly higher on the action of Liverpool and foreign exchange.

Early demand came from the trade, Liverpool, Wall Street and wire houses and offerings were limited.

Receipt of news early in the afternoon that the senate had passed the Bankhead bill brought in a good volume of buying from local sources, NEW YORK. March 29 .- (A)-

prices were at or within a few points of the best.

Opinion concerning the Bankhead bill was withheld in some quarters pending possible revisions in conference, owing to differences in the provisions as passed by the house and the senate.

Exports today 21,807, making 6,125,861 so far this season. Port receipts 13,029. United States port stocks 3,152,790.

Considerable interest was manifested in Washington reports quoting Senator Bankhead to the effect that he believed a compromise could be reached on some of the senate amendments which were said to have weakened the bill.

Other Reports.

Other reports quoted Secretary of Agriculture Walles these similars.

Other Reports.
Other reports quoted Secretary of Agriculture Wallace that a ginning tax of 75 per cent on cotton above quotas seemed out of line with the general theory of taxation, but that the amendment restricting the operations of the bill to one year was an ample period for the experiment an ample period for the experiment.

The overriding of the presidential veto on the independent offices appropriation bill led some to consider the possibility of inflationary developments to provide for increased reversely.

Advices from the cotton goods market indicated a continuation of quiet conditions, and although a somewhat better inquiry for spot cotton was reported, actual business in the south was still said to be small.

COTTON IN NEW ORLEANS
ADVANCES 21-29 POINTS
NEW ORLEANS, March 20.—(P)
The cotton market was very active
today and prices developed a sharp
upturn, due to general buying resulting from senate passage of the Bankhead bill, a scarcity of contracts and
covering of shorts in advance of the
Easter holidays. The close was very
steady at gains for the day of 21
to 29 points.

Liverpool cables were about as due but sterling was higher.

May and July closed at a net ad-

## **BONDS MAINTAIN** FIRM UNDERTONE

Daily Bond Averages.

By VICTOR EUBANK. NEW YORK, March 29.-(A)-Most price changes in the listed bond market were without any particular significance today and trading generally was of a routine character.

The market will be closed tomorrow

for Good Friday.

The volume of transfers was somewhat under that of yesterday, amounting to \$10,262,000, par value. The average for 60 domestic corporate loans edged up one-tenth of a point to 84.9.

While United States government securities and the majority of prime in-vestment corporation bonds displayed considerable hesitancy, in view of the inflationary implications of the over-

inflationary implications of the over-throw by the senate of the presiden-tial veto, there was no especial weak-ness in any of these groups.

The more active rail gainers of fractions to a point or more included some liens of Alleghany Corporation, Santa Fe, Baltimore & Ohio, South-ern, Western Maryland and Western Pacific.

Pacific.

Warner Bros. 6s were the liveliest of the session, 232 of these changing hands at a gain of 2 1-4 points. Smaller advances were registered by issues of Western Union, United Drug, United States Rubber, Postri Telegraph, North American Edison, International Telephone, International Hydro-Electric and American & Foreign Power.

Foreign Power.
United States treasury obligations were moderately irregular at the close, as were foreign bonds.

CHICAGO, March 29.—(P)—Preholiday readjustment of accounts, together with inflation talk occasioned
by overriding of President Roosevelt's bonus bill veto, led to higher
prices today for wheat.

Much undoing of spread trades was
a feature, and involved considerable
purchasing of wheat against sales of
corn. The corn market at one time

Much undoing of spread trades was a feature, and involved considerable purchasing of wheat against sales of corn. The corn market at one time showed a break of more than a cent a bushel, falling to a new low since December.

Wheat closed firm 3-8 to 7-8 above yesterday's finish, corn 1-4 to 1-2 down, oats at 1-4 advance, and provisions varying from 2 cents decline to a rise of 5 cents.

Emphasizing inflation talk as a bullish factor regarding wheat was strength shown by securities, cotton, silver and sterling.

Corn was bearishly affected by slackening of demand from shippers.
Oats were governed by wheat price action rather than the course of the corn market.

Provisions averaged higher with

He saw the shifts attempt to talk with their prisoner; but evidently neither understood the other. Tarzan was familiar with the Kaficho language, and the questions asked by the bandits aroused his interest still further. They were asking the way to a place where there was much ivory and gold.

"Tomorrow, if he still won't speak," said their leader, "we'll kill him." They squatted about the fire and discussed events. Tarzan listened grimly to their chief topic, the strange white giant who had slain three of their number. Now Tarzan could see that the strange white prisoner was armored

## SINGLES SCORE AT JACKSONVILLE

Non-Resident Rule Keeps Atlantan From Florida Shoot Title.

JACKSONVILLE, Fla., March 29. (P)-J. B. Royall, of Tallahassee, won a special 25-bird shoot-off from E. E. Bishop, of Bradenton, today to take the singles championship in the Florida state trapshoot.

Missing only one bird in the extra event, Royall was far ahead of his opponent, who could break but 19 of the 25 tossed. Each had cracked 184 of the 200 16-yard targets in the regular program 184 of the 200 16-yard targets in the regular program.

Best score of the day—a raw, windy one that saw scoring conditions almost unparalleled in the history of the state shoot—was made by young Jack Tway, of Atlanta. He knocked down 187 of the clay pigeons, but as a non-resident was ineligible for the championship.

CUSCADEN LEADS.

CUSCADEN LEADS. The professionals were paced by Arthur Cuscaden, of Tampe, who had a score of 178, exactly 20 birds less than he cracked in the same event

last year. Emmett Hines, also Tampa, was second with 175. Mrs. W. P. Andrews, of Daytona Beach, led the women sharpshooters by breaking 177, which was better than many of the men.

Few entered the 25 pairs of doubles comprising the first half of the state championship race. Royall and E. E. Bush of Tallahessen broken 40.

championship race. Royali and E. E. Bush, of Tallahassee, broke 40 to share the lead at the half-way mark.

HINES BEST PRO.

Hines paced the pros with 37, topping Cuscaden by 10 targets.

The meet will close tomorrow with the shooting of the last half of the doubles, the state handican champion. bles, the state handicap champion ship and the open skeet event.

duced to seven and still they played girls' rules. Or girls' rules as we know them today. They were playing seven on a team as late as 1907. It

IT IS DISTRESSING TO NOTE.

It is distressing to note that the original game, when reduced to nine and seven, selected the guards for their dumbness. That is to say, the players who couldn't shoot or run or think very well were played as guards. The centers were rated next in smartness, or dumb

ness, and the forwards were the fair-haired boys. The guards merely stood and waited, comforting themselves with the old proverb that he also serves who only stands and waits. This has been changed very radically, and the centers today

are fair-haired boys, and so are the guards. In fact, the guard and center who cannot take his turn at banging down the floor and shooting a few baskets is not on the modern team.

#### "DUNKING" THE BALL IN THE BASKET.

No one has asked me to air my views on the subject, but it seems to me that Dr. "Phog" Allen is quite correct in asking for the baskets to be raised to 12 feet in height. He has a center next year who is six feet seven inches tall.

and so he cannot be accused of having any ulterior motive in the matter.

It is his idea that the tall centers simply dunk the ball in the basket as a doughnut man dunks his doughnut in his morning coffee. There is no shooting by them If the baskets were raised a couple of feet the

them. If the baskets were raised a couple of feet, the tall boys would be forced to shoot instead of dunk. And not only that, but if the baskets were up that high the

ball, when missing the basket, would rebound out into the floor. This would remove the big tough guard who stands there and shoulders the boys out of his way as he takes the ball from the backboard. There is much opposition to this proposed change.

And the only reason for the opposition is that in 1891 an architect built a running track 10 feet above the gym floor and Dr. Naismith hung some Georgia peach baskets on it. But that makes it a tradition, and so let's don't bother with sacred traditions of the game. It occurs to me that Dr. "Phog" Allen is a voice crying in

the wilderness and judging from the opposition, he has plenty of wilderness listening to him. He'll win his point within a colors at the national duckpin tourna-ment in Baltimore will find formiand sense usually wins, although it may be long delayed.

Great Man o' War Passes 17th Birthday

LEXINGTON, Ky., March 29.—47
Man o' War, famous horse that won 20 of his 21 races in 1919 and 1920 and \$249,455 in stakes and purses, was 17 years old today.

It was just like any other day to the "horse of a century," as he buried his muzzle in his usual breakfast of four quarts of oats and was led out for his regular morning canter which helps in keeping down that middle aged spread of girth.

The 131 sons and daughters Man o' War has sired since his retirement to the stud in 1921 have won more than \$1,800,000 for their owners. Among them are nearly 40 stake winners.

There were some more good fielding plays. Koehler and Swede Johnson contributed two sparkling catches in the outfield and Sheerin, besides his hitting, came up with a great play on Robello's grounder in the sixth.
